1994 Election Financing

Fact Book

Compiled by
Washington State
Public Disclosure Commission

Printed by the
Washington State Department of Printing
Olympia, Washington
January 1996

FOREWORD

The 1994 Election Financing Fact Book is the ninth in a series of comparable biennial reports produced since 1978 by the Washington State Public Disclosure Commission, pursuant to the Commission's authority in RCW 42.17.370(3) to publish reports and statistics concerning campaign finance so that the information may be fully disclosed to the public.

Material in this book is based on campaign finance reports filed by candidates and political committees disclosing activity through December 31, 1994, and also includes subsequent adjustments or amendments submitted by filers through October 31, 1995. For the most part, these reports have not been audited by PDC staff. Every effort has been made to assure that the data as well as the summary charts and graphs accurately reflect the filed information.

This Fact Book records the political finance activity of the first regular legislative election to be held since the passage of Initiative 134, the ballot measure approved by voters in 1992 that imposed limits on the amounts contributors may donate to candidates for state office, political parties and legislative caucus committees. Final tallies show that total contributions to legislative candidates in 1994 declined $2.7 million from 1992, with aggregate candidate expenditures dropping nearly $3 million. Some of this decrease may be attributed to the fact that there were 27 fewer legislative candidates in 1994 than in 1992 (316 and 343, respectively). Nevertheless, on average, a winning legislative candidate in 1992 spent $68,692, compared to $51,340 in 1994. For more details, see the section devoted to "The Legislature."

This book primarily profiles legislative candidate campaigns. It includes a descending list of each general election legislative candidate's major contributors (those giving a total of over $500) as well as an alphabetical list of his or her contributors who gave more than $100 in the aggregate. The reverse directory at the end of the book identifies the significant givers to legislative campaigns, those individuals, businesses, unions, PACs and organizations that donated at least an aggregate of $1,000 to legislative campaigns and were reported as contributors by no fewer than three different legislative candidates.

[1] In July of 1995, the Commission found that aggregate expenditures of $28,328 by the WA St Council of Firefighters in 1994 supporting George Orr constituted an excessive contribution (rather than independent expenditures). This $28,328 in in-kind contributions is in addition to the amounts reported as received and spent by the George Orr campaign.

[1] In July of 1995, the Commission found that aggregate expenditures of $28,328 by the WA St Council of Firefighters in 1994 supporting George Orr constituted an excessive contribution (rather than independent expenditures). This $28,328 in in-kind contributions is in addition to the amount reported above.

[1] In July of 1995, the Commission found that aggregate expenditures of $28,328 by the WA St Council of Firefighters in 1994 supporting George Orr constituted an excessive contribution (rather than independent expenditures). This $28,328 in in-kind contributions is in addition to the amount reported above.
